Property Line Agreement

Fence and Block Wall Property Line Agreement I, _____ (name of primary property owner), or my contractor, will obtain a “fence/block wall permit” for my property. The fence/block wall will be placed on the property line(s) between my property and my neighbor’s property on the marked or supposed separation line (this is not an agreement to alter a legal property line, only to place a structure on it). It is hereby agreed upon by the following parties/property owners (listed below) that the fence/block wall shall be constructed and permitted to be built at an equal distance on either side, straddling of the property line(s). It is understood that this new fence/block wall does not necessarily represent a legal property line marker and should not be considered as such, the location of this structure does not change or alter any real property. Furthermore, all parties/property owners agree to hold harmless the City of San Bernardino and City staff for any approvals pertaining to the location, construction and issuance of a fence/block wall permit(s).

A. _____

Primary job site address	City	Zip Code
--------------------------	------	----------

Property Owner (print name)	Signature	Date
-----------------------------	-----------	------

1. _____

Adjacent property address	City	Zip Code
---------------------------	------	----------

Property Owner (print name)	Signature	Date
